

## Equinox – September 2015

Another 24 hour race! This time it was 10k laps and 3 teams were entered. It was much colder than Endure and this did put a slightly different mood in the camp but we all had a great weekend anyway! We had a large camp area set up right by the route on the final climb to the finish, so spent a lot of our waking hours cheering on competitors (when we weren't eating). Our three teams finished a creditable **21st, 24th & 58th out of 161 teams of various sizes and pairs**. Due to the distance from home most of us stayed the 3<sup>rd</sup> night but checked into a hotel where we all enjoyed a 3 course meal and a warm bed!

The photos below show the changeover point at around 6am and the 3 teams altogether at the end with their medals!
